

# **ERBB3 Monoclonal Antibody**

## Description

Product type Antibody

Code BT-MCA2329

Host Mouse

 Isotype
 Mouse IgG1

 Size
 100μL, 50μL

Immunogen Purified recombinant extracellular fragment of human ERBB3 (aa22-369) fused with hIgGFc tag expressed

in HEK293 cells.

Mol wt 148kDa

Species reactivity Human

Clonality Monoclonal

 $\begin{tabular}{ll} Recommended application & ICC \\ Concentration & N/A \\ Full name & N/A \\ \end{tabular}$ 

Synonyms HER3;c-erbB3

This product is for research use only, not for use in human, therapeutic or diagnostic procedure.

## Background

ERBB3, v-erb-b2 erythroblastic leukemia viral oncogene homolog 3 (avian). It is a member of the epidermal growth factor receptor (EGFR) family of receptor tyrosine kinases. This membrane-bound protein has a neuregulin binding domain but not an active kinase domain. It therefore can bind this ligand but not convey the signal into the cell through protein phosphorylation. However, it does form heterodimers with other EGF receptor family members which do have kinase activity. Heterodimerization leads to the activation of pathways which lead to cell proliferation or differentiation. Amplification of this gene and/or overexpression of its protein have been reported in numerous cancers, including prostate, bladder, and breast tumors. Alternate transcriptional splice variants encoding different isoforms have been characterized. One isoform lacks the intermembrane region and is secreted outside the cell. This form acts to modulate the activity of the membrane-bound form. Additional splice variants have also been reported, but they have not been thoroughly characterized.

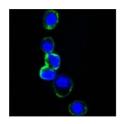

## Recommended Dilution

WB: 1:500 - 1:2000 ICC: 1:200 - 1:1000 ELISA: 1:10000

Not yet tested in other applications.

#### **Images**

Western blot analysis using ERBB3 mouse mAb against human ERBB3 (aa22-369)-hIgGFc trasfected HEK293 cell lysate (1).

Confocal Immunofluorescence analysis of HEK293 cells trasfected with extracellular ERBB3 (aa22-369)-hIgGFc using ERBB3 mouse mAb (green). Blue: DRAQ5 fluorescent DNA dye.

## Storage

Store at 4°C short term. Aliquot and store at -20°C long term.
